

Enhance Your Life!

MEAC is offering a new service called the Enhance Your Life (EYL) program. EYL is an opportunity to meet with MEAC staff and partners to receive free mentoring services, encouragement, and potential access or referrals to additional resources. In particular, this program is designed to offer you one-on-one time to talk with someone about your goals for maintaining and increasing household income, as well as maintaining stable housing. There are also opportunities for job coaching, financial education, and sharpening life skills (e.g., budgeting, stress management, and confidence building).
